Steve:

In your article at

<http://blogs.platts.com/2014/07/30/peak-oil-forecasts/>

there is a figure that I'd like to use in an upcoming book that I'm writing. The book is called "Beyond GDP: National accounting in the age of resource depletion," and it is to be published with Springer.

Do you own the copyright for that chart? If so, can you grant permission for me to use the chart in my book?

If not, can you point me to the original source at Astenbeck so that I can request permission from them?

Cheers,

Matt
